

## **PROFESSIONAL PROFILE AND BIOGRAPHICAL DATA**

### **Director of Electricity North West Limited**

**Type:** Internal, Executive Director

**Date of Appointment:** 30 April 2026

### **Current professional activities and positions**

Paul is the Asset & Investment Director of SP Electricity North West and plays a key role in the planning and delivery of SP Electricity North West's £2billion network investment plan from 2023-2028, ensuring that investments are fit for now as well as the future clean growth of the company's distribution region.

Paul is a member of the board of directors of North West Electricity Networks (UK) Limited.

### **Personal profile and academic training**

Paul is a chartered engineer and Fellow of the Institution of Engineering and Technology. He has a Bachelor's degree in electrical and electronic engineering and Master's degree in business administration.

### **Noteworthy experience in the energy and industrial engineering sector**

Paul has more than 30 years' experience across electricity networks and major contracting companies in the energy sector.

### **Noteworthy experience in other industries**

Prior to working at SP Electricity North West, Paul held senior engineering and operational roles in Wood Group and Balfour Beatty where as Head of Engineering for the Rail business he delivered electrification engineering solutions including Liverpool to Manchester and Bristol to Cardiff for Network Rail and for the San Jose to San Francisco railway for Caltrain. At Wood Group Paul was Operations and Engineering Director for the UK Power Business.
