Bringing energy to your door

## Incentive on Connections Engagement Q4 update

Welcome to our final 2017-18 connections newsletter, keeping you up to date on our latest news and updates from our Incentive on Connections Engagement (ICE) Work plan.

[View our plans!](#)

Our plans were developed from the feedback you gave us in events and surveys throughout the year. Our work plans have evolved over the year as we engaged with stakeholders to make sure that we continue to focus on topics that are important to you.

## Distributed Generation connections

Thinking of applying for a distributed generation connection but want to ask some questions first? Get in touch and request a call back at [generationenquires@enwl.co.uk](mailto:generationenquires@enwl.co.uk)

## Upcoming events

We are holding a number of surgeries and workshops for our connections customers. To see dates/ locations of our upcoming events and to register your place, please visit our [events calendar](#).

## A&D fees webinar

We will be holding a **webinar** in the coming weeks to introduce our approach to the new Assessment & Design Fees. If you are interested in attending this webinar please visit our [events calendar](#) where you will find all the information once a date has been confirmed.

---

## Our new website

In October 2017 we launched our brand new corporate website [www.enwl.co.uk](http://www.enwl.co.uk). We hope you're finding the new functionality easier and faster to find the information you need. If you have any feedback on your experience of navigating our website, please contact us at [ICE@enwl.co.uk](mailto:ICE@enwl.co.uk)

---

## Sign up to our distribution lists

If you would like to receive our Health & Safety bulletins please [sign up](#) to our new Health & Safety distribution list

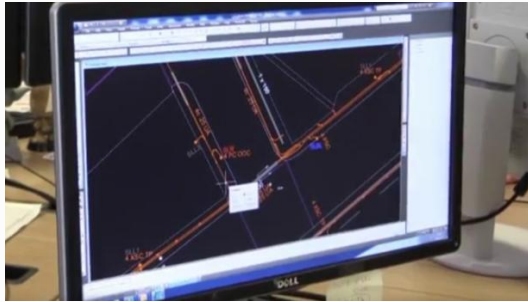

Want to keep up to date with any changes in our policies, engineering standards and specifications? [Sign up](#) now for our bi- monthly policy newsletters.

## Get in touch

For all customer and stakeholder enquires and feedback please contact the ICE team at [ICE@enwl.co.uk](mailto:ICE@enwl.co.uk)

## GIS access

If you haven't already signed up to receive our GIS data, [register today](#) to receive your copy. Once you are registered to receive these updates we will send you a link to download our data. We recommend those using this data to load into QGIS, a free, open source online tool where you can configure your own mapping background to accompany our data.

## Flexible Services

Could you generate additional electricity or reduce your consumption of electricity and receive payment in return? As the region's distribution network operator, it's our responsibility to plan for the future and seek out smarter, more flexible solutions to meet future demand for electricity. We are utilising a number of innovative techniques to ensure we can continue to deliver an affordable, reliable and sustainable electricity supply for all our customers. Flexible services is one of those techniques. We're looking for expressions of interest from companies or individual customers who have the flexibility to generate electricity onto the network, or reduce their demand, in return for payment. This alternative solution could avoid the need to replace network equipment and reduce costs for all electricity customers. Find out more [here](#).
